

# FOUR YEAR PLAN SHEET

This four-year plan sheet is included as a blueprint for your high school success. We encourage you to enlist the aid of your parents in selecting courses that will meet your educational career plans. The plan sheet can be re-worked or changed each year, but will provide an overall view of your academic goals.

Parents are encouraged to contact the high school guidance office if any questions arise concerning their child's schedule. (Guidance Office Telephone-786-1447)
