Participants in the Institute may obtain graduate credits through Purdue University.

- \$1044 for in-state
- \$1537 for out-of-state

Beech
Grove
City Schools

- 3 graduate credits for YDAE 64000
- Credits transcribed December 2014
- Tuition includes course recommended textbook

Course description:

YDAE 64000 is a graduate course in technical agriculture knowledge for secondary agricultural science and business teachers. The emphasis in this course is on agricultural technologies and their theoretical and pragmatic applications for classroom teachers based on contemporary trends and information, and the needs of the teachers. The principles and procedures of curriculum construction will be applied to courses of study currently in agricultural science and business.

YDAE 64000 is a course in emerging research and information about agricultural technologies from the disciplines housed in Purdue's College of Agriculture. It is intended to provide information and practice on integrating agricultural technology into the high school curriculum. Although the course is designed for agricultural science and business teachers, others may take the course with permission of the instructor.

If you have further questions about the graduate credit please contact:

B. Allen Talbert, Professor
Purdue University, Youth Development & Agricultural Education
Agricultural Administration Building, RM 224
